

Temenos Transact Training Program

If you are seeking a career change or exploring new job opportunities in the FinTech sector, attending the T24 Training could be the perfect step for you.

Why TEMENOS Certified Consultants are in DEMAND

- Temenos serves more than 3,000 financial institutions across 145 countries worldwide.
- Temenos Core Banking Software is used by 41 of the top 50 banks worldwide.
- Temenos T24 software has been the world's leading banking software for several years. Last year, Temenos and its partners successfully launched 340 institutions with its Core Banking software. As a result, the demand for Temenos-certified consultants is expected to remain high for the next 3 to 5 years.

Pre-Requisite/Prior Knowledge:

- You should have a University degree either Masters or Bachelor in Engineering with Computer science or Electronics background.
- Engineering Graduates who can communicate in English fluently, who have C, C++, Java programming, Aptitude and Logical reasoning skills.

Who should attend:

“Temenos partners or Temenos Clients or Corporates who have licensed Temenos environment”

Benefits of our Training Program:

- Learn from the Industry Experts who have 24+ years of real time experience into T24 Development.
- Support, Upgrade, Migration, Implementation, Testing and Training. Re-Cap session everyday morning, Group Discussion, Practical workshop, and QA on each topic. 3 Months T24 Basic and Advanced Training on Various Topics.

About Training:

In line with implementation standards, we have launched the 'T24 Technical & Business Training' programs— offering a unique learning opportunity for everyone.

Course Objectives:

The primary objective of this training is to equip professionals with real-time, practical, and in-depth knowledge of T24/TRANSACT, covering navigation, coding, and industry standards. The program is structured into four key modules: Basic Technical, Advanced Technical, T24 Product Overview, and Functional Training.

Technical Training Objective:

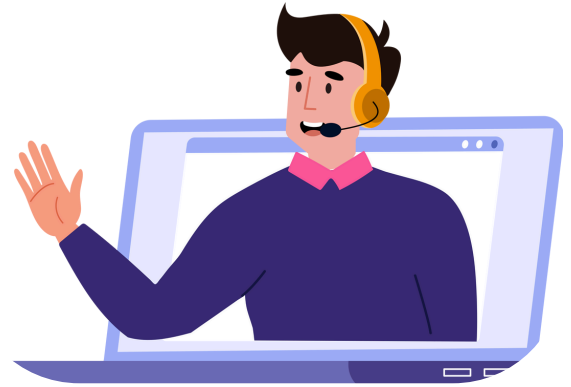

The technical module introduces participants to basic programming in T24 T AFC/TAFJ using Design Studio, along with hands-on experience in jBase commands, navigation, enquiry creation, version creation, OFS usage, and COB execution in a practical setting.

Functional Training Objective:

The functional module provides participants with T24 navigation expertise and a comprehensive understanding of key T24 module. It includes hands-on demonstrations creation and authorization across various modules viewing delivery messages and accounting entries

Viewing Modules Covered:

- Customer & Accounts
- Funds Transfer (FT) & Lending (LD)
- Limits & Collateral
- AA Core & AA Accounts
- AA Lending & Deposits
- Forex & SWAP
- Securities, Derivatives & Repo
- Soft Delivery & Financial Accounting
- Reporting, FCM, FRM, & TPH

This training is designed to offer comprehensive learning experience, ensuring participants gain both technical and functional expertise in Temenos T24/TRANSACT.

Placement Assurance

We assure arranging for Interview with Temenos and its Partners for those who perform well with our daily re-cap sessions and online tests. We also assure placements in our company itself based on the performance.
